### PY SQUIRREL GREY RAL7000 PIGMENT

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of	the substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	PY SQUIRREL GREY RAL7000 PIGMENT
Product number	WS16691A
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	COLOURING OF POLYESTER RESINS & GELCOATS.
1.3. Details of the supplier of	the safety data sheet
Supplier	WEST AND SENIOR LIMITED. MILLTOWN STREET RADCLIFFE MANCHESTER. M26 1WE. TEL + 44 01617247131 FAX + 44 01617249519 info@westsenior.co.uk
1.4. Emergency telephone nu	mber

Notes for the doctor	No specific recommendations.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	No unusual fire or explosion hazards noted.
Hazardous combustion products	Heating may generate flammable vapours. Vapours may form explosive mixtures with air.
5.3. Advice for firefighters	
Protective actions during firefighting	No specific firefighting precautions known.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental releas	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Avoid heat, flames and other sources of ignition. Provide adequate ventilation.
6.2. Environmental precaution	<u>s</u>
Environmental precautions	Avoid the spillage or runoff entering drains, sewers or watercourses.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Stop leak if possible without risk. Absorb in vermiculite, dry sand or earth and place into containers. Avoid the spillage or runoff entering drains, sewers or watercourses.
6.4. Reference to other section	ns
Reference to other sections	For waste disposal, see section 13.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Take precautionary measures against static discharges. Contaminated rags and cloths must be put in fireproof containers for disposal.
7.2. Conditions for safe storage, including any incompatibilities	
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep separate from food, feedstuffs, fertilisers and other sensitive material.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure control	s/Personal protection
8.1. Control parameters Occupational exposure limits

8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	No specific ventilation requirements.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of skin contact.
Hygiene measures	Do not smoke in work area. Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin.

### SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties	
Appearance	Viscous liquid. or Coloured paste.
Colour	Various colours.
Odour	Aromatic.
Odour threshold	No information available.
рН	No information available.
Melting point	No information available.

Initial boiling point and range	No information available.
Flash point	>65°C
Evaporation rate	No information available.
Evaporation factor	No information available.
Flammability (solid, gas)	No information available.
Upper/lower flammability or explosive limits	No information available.
Other flammability	No information available.
Vapour pressure	No information available.
Vapour density	No information available.
Relative density	No information available.
Bulk density	No information available.
Solubility(ies)	Organic solvents. Insoluble in water.
Partition coefficient	Not available.
Auto-ignition temperature	No information available.
Decomposition Temperature	No information available.
Viscosity	No information available.
Explosive properties	No information available.
Explosive under the influence of a flame	No
Oxidising properties	Not available.
Oxidising properties Comments	Not available. No information available.

#### 10.6. Hazardous decomposition products

Hazardous decomposition	Thermal decomposition may lead to formation of a multiplicity of compounds some of which
products	may be hazardous. With incomplete combustion smoke and hazardous fumes and gases,
	including carbon monoxide, may be formed.

### SECTION 11: Toxicological information

11.1. Information on toxicolog	ical effects
Toxicological effects	Not classified.
Acute toxicity - oral	
Notes (oral LD₅₀)	Not relevant.
Acute toxicity - dermal	
Notes (dermal LD <sub>50</sub> )	Not relevant.
Acute toxicity - inhalation	
Notes (inhalation LC₅₀)	Not relevant.
Acute and chronic health hazards	No specific health hazards known.
Toxicological information on in	ngredients.
	CARBON BLACK
Acute toxicity - c	oral
Notes (oral LD₅o	) LD₅₀ >8000 mg/kg, Oral, Rat
Germ cell mutag	jenicity
Summary	In vivo mutagenicity in rats occurs by mechanisms secondary to a threshold effect and is a consequence of "lung overload," which leads to chronic inflammation and the release of genotoxic oxygen species. This mechanism is considered to be a secondary genotoxic effect and, thus, carbon black itself would not be considered to be mutagenic.
Genotoxicity - in	vitro Carbon black is not suitable to be tested directly in bacterial (Ames test) and other in vitro systems because of its insolubility. However, when organic solvent extracts of carbon black have been tested, results showed no mutagenic effects. Organic solvent extracts of carbon black can contain traces of polycyclic aromatic hydrocarbons (PAHs). A study to examine the bioavailability of these PAHs showed that they are very tightly bound to carbon black and are not bioavailable (Borm, 2005).
Genotoxicity - in	<b>vivo</b> In an experimental investigation, mutational changes in the hprt ene were reported in alveolar epithelial cells in the rat following inhalation exposure to carbon black (Driscoll, 1997). This observation is considered to be rat-specific and a consequence of "lung overload," which leads to chronic inflammation and release of reactive oxygen species. This is considered to be a secondary genotoxic effect and, thus, carbon black itself would not be considered to be mutagenic.
Carcinogenicity	

IARC carcinogenicity

icity IARC Group 2B Possibly carcinogenic to humans.

SECTION 12: Ecological information

Ecotoxicity	Not regarded as dangerous for the environment.
12.1. Toxicity	
Toxicity	Not considered toxic to fish.
12.2. Persistence and degrad	dability
Persistence and degradabilit	<b>y</b> There are no data on the degradability of this product.
12.3. Bioaccumulative potent	ial
Partition coefficient	Not available.
12.4. Mobility in soil	
Mobility	No information available.
12.5. Results of PBT and vP	/B assessment
Results of PBT and vPvB assessment	No information available.
12.6. Other adverse effects	
Other adverse effects	None known.
SECTION 13: Disposal consi	derations
13.1. Waste treatment metho	uds
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Empty containers should be taken to an approved waste handling site for recycling or disposal.
SECTION 14: Transport info
