PRODUCT DATA SHEET

Product	Bilge Cleaner
Type	Water-based cleaning agent
Intended Use	When added to bilge water, Bonda Bilge Cleaner removes grease, scum and floating oil with normal boat movement.
Special Features	Biodegradable. Highly concentrated. Gets rid of sickening smells. Diluted product may also be used to remove oil and grease from paintwork, fittings and traffic film from cars.
Preparation	Not applicable
Application	Pour Bonda Bilge Cleaner into any shallow accumulation of water between floorboards. Add most in the area around the pump well. Clear all limber holes. Leave Bonda Bilge Cleaner in the water whilst underway, then pump out in the usual manner. If the boat is motionless, add Bonda Bilge Cleaner and stir bilge water. Rub down bilges with a brush if bilge particularly dirty. For surfaces not touched by bilge water, add a little Bonda Bilge Cleaner to a bucket of water and apply by sponge, rag or cloth. For cleaning oil stains and grease from paintwork or traffic film from cars, add a little Bonda Bilge Cleaner to the cleaning water.
Coats	Not applicable
Drying Time	Not applicable
Re-coating Time	Not applicable
Application Temp.	Optimum temperature 15 – 25 degrees Centigrade.
Coverage	100 ml of product to 25 litres of sea or inland water is enough to treat a 30 ft. yacht.
Maintenance	Not applicable.
Compatibility	In its highly water-diluted form, (i.e., 1 part Bonda Bilge Cleaner: 250 parts water), may be used on car paintwork to remove oil, grease and traffic film.
Settlement	Shake well before use.
Shelf-life/Storage	Many years if stored unopened in a cool, dry place
Hazards	Danger. Contains (C9-11) alkyl alcohol ethoxylate. Causes serious eye damage. Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minute. Remove contact lenses if present and easy to do. Immediately call a POISON Centre/doctor. Dispose of content/container in accordance with local regulations. Ingredients (Regulations 648/2004 EC on detergents). Less than 5% cationic surfactants.30% or more – Non-Ionic Surfactants. Note: The use of Bonda Bilge Cleaner does not relieve the user of obligations under the River, Canal or Harbour Regulations.
Clean-Up	Wash with water.
Sizes	1L, 5L
